Union School District No. 2

REPORT OF SUPERINTENDENT OF SCHOOLS

To Citizens and Parents Residing in Union School District:

According to custom the report of the Board of Education is made at the close of the financial year rather than of the school year, that the same may be incorporated with other public reports. Through the spring term of 1907, the same excellent corps of teachers which for some time past had taught in the various grades remained, but at its close several changes occurred—Miss Emery, Miss Jebb, and Miss Parker, each of whom had devoted many terms of faithful service to their several grades, decided to seek new fields of work. Miss Calley remained as the efficient principal, Miss Taylor in the fourth and fifth grades and Miss Ingalls in the first or primary.

After extensive correspondence, supplemented by considerable travel and various personal interviews, Miss Theodate Burpee of Laconia was engaged to instruct the pupils of the High school, Miss Helen I. Whipple of West Roxbury, Mass., grades six and seven, Miss Winifred S. Nichols, grades two and three.

In all of the grades so far as we are able to judge the teachers have labored diligently, faithfully and efficiently and the scholars as a whole have been faithful to their duties. The High School has been approved for a two years' course.

The health of the pupils generally speaking has been good. No epidemic has afflicted them.

Discipline has been well maintained and the morale of the school excellent.

Instruction has been given in physical culture and physiology as required by law.

The suggestion heretofore made by the Board is repeated that it would be glad to have our local physicians visit the schools at any time and make such suggestions as may occur to them relative to ventilation, sanitation and the general health and welfare of the scholars, from a hygienic standpoint.

The finances of district are in a satisfactory condition.

Various substantial improvements of a character much needed have been made during the past year.

At the time of the erection of the school building no substantial cellar was made under the same, which should have then been done, but only a comparatively small pit was at that time dug out. The boiler which had been in use for many years was unsuitable and insufficient. The Board decided to install a larger and better one, to locate the same more nearly in the center and also to provide for proper coal storage. In order to do this, it became necessary to excavate as large a cellar as could be made, consistent with the safety of the superstructure. The excavation was successfully accomplished under the direction of Messrs. Wells and Gilman of the Board and a fine new horizontal, tubular boiler of about 28 h. p. placed in the cellar which has proved to be amply sufficient to heat all of the rooms in the building requiring heat without forcing the draught, thus saving both labor and fuel. Owing to strikes and other alleged unavoidable delays the boiler was not shipped as soon as agreed and for a little more

than two weeks of the fall term the schools were taught in the town hall and the vestry of the First Congregational society.

During the past year maple trees at intervals have been set out around the grounds. The earth removed from the cellar has been used for grading the grounds, which have been much improved in that respect, though more loam is still needed. The High school room heretofore only an anteroom, without heat, except such as might be derived from adjoining rooms, has been enlarged to about double its former size, a new floor laid and new windows added so that it is now sufficiently commodious for the present classes, steam heated and very well lighted. The former entrance was through another room but now a separate entrance from the hall has been provided. We feel that the two years of the high school permitted here at home is not sufficiently appreciated by those having children to educate. There is an unwise tendency on the part of some to either withdraw their children or to encourage them to leave school for work in the mills or elsewhere without giving them the benefit of a partial high school education at least, which can be had at home for two years free from cost, save the ordinary expense of board and clothing, and which is very essential to the proper education of the pupils and should not be omitted except when required by extreme necessity. The two years spent in the high school are very much more profitable in the long run to the scholars than the same time in some mill or other manual occupation can possibly be. The pupils are then at an age when the proper time for a partial completion at least, of their school time education can and should be allowed and set apart for this most important and useful purpose. Our public schools

should be not only a mental but a moral force, training both the intellect and the character, sending forth boys and girls well started in the journey of life toward strong and vigorous manhood and womanhood, good citizenship and noble and useful lifework, for which the more complete the education the more complete and satisfactory the results. To this end, parents, citizens, teachers and scholars should strive patiently, earnestly and loyally.

The present members of the Board of Education are Mr. Frank N. Gilman, chairman; Mr. Albro Wells, secretary and treasurer; Mrs. Ada Cavis, Mr. Roswell Cutler and Ira A. Chase.

Respectfully submitted,

For the Board of Education,

IRA A. CHASE, Supt.

Respectfully submitted,

ALBRO WELLS, Treasurer.

This is to certify that I have this day examined the accounts of the treasurer of Union School district, No. 2, for the year ending Feb. 15, 1908, and find them correct according to my best knowledge and belief.

CHANNING BISHOP, Auditor.

Bristol, N. H., Feb. 26, 1908.

Report of School Board

In giving our annual report for the ensuing year we regret to say we have not been able to secure good teachers as what used to be had at less money than we have to pay at the present time owing to so many going to Normal school and than all able to secure far better pay than what can be paid for teaching a half dozen scholars.

We do not have proper support by some of the parents; people who never attend school meeting or visit a school does not give children courage. So when people stand back and leave it all to school board and teachers they cannot expect to get results as could be had if they would all work together and not allow children to stay out half of the time.

Owing to the small numbers of scholars in two of our districts we have been obliged to close them and convey the scholars to other districts at less than one half the cost to run a school and have had good results in doing so.

We have not made many repairs. Most all have been made in the Profile Falls district, that has been shingled and when there are scholars enough for a school it will have to be plastered and generally overhauled. The building in district No. 8 is in good condition with one exception—the back is red the same as has been for the last dozen years; it will have to be newly clapboarded before painting.

Respectfully submitted,

CLARENCE E. JEWELL,	} School Board.
CHAS. E. KIMBALL,	
H. T. HEATH,	

ROLL OF PERFECT ATTENDANCE

District No. 1. Fall term 1906—Harold J. Kenney, Emma M. Kenney, Pearl M. Ballou.

District No. 3. Fall term 1906—Alice M. Dalton, F. Neil Dolloff.

District No. 8. Fall term 1906—Maud B. Reed, Ethel D. Reed, Eva M. Reed, Dora M. Reed, Grace L. Rice, Frank Rice, Clarence E. Jesseman.

Spring term 1907—Maud B. Reed, Ethel D. Reed, Eva M. Reed, Dora M. Reed, Frank Rice, Robert Rice, Ralph E. Reed.

District No. 9. Fall term 1906—Raymond Mitchell, Katherine Sanborn.

GEORGE S. DAVIS, Auditor.

Feb. 21, 1908.

The Minot-Sleeper Library

During the year 224 new volumes have been added to the circulating department making a total of 7,232 in this department. Two hundred thirty reference books and pamphlets have been added making 405 on the shelves.

During the year 7,685 books have been withdrawn from the shelves and the Day-Jackman reading-room has been patronized by 1,295 patrons.

The card catalogue has been brought down to date. In addition to the books of fiction, many valuable biographical, historical and scientific books have been added. Among these is the Library of Valuable Knowledge of 25 volumes.

This library is very rich in its reference books, and our people evidently do not realize the value of this department. A vast amount of information can be readily obtained on almost any subject by consulting these books. Crawford's Map of the White Mountains, drawn by the late Geo. T. Crawford, a former citizen of Bristol, has been donated by his daughter, Miss M. Emma Crawford, and hung on the wall; and the U. S. Government has given a large wall map of the United States, which has been hung on a roller on one of the book cases.

The limited quarters of this library are becoming more and more apparent each year. Nearly every available foot of space has been utilized and the question of enlarged accommodations must soon come up for the voters of the town to consider. We bespeak for the libra-

ry the same broad-minded liberal policy that has characterized the action of the town in the past. The value of this institution as an educator can hardly be overestimated. Of necessity the cost of maintaining the library increases as the books become worn and must be rebound and new books added, but the trustees are using due diligence to keep the expenses as low as possible.

Respectfully submitted,
